1 Introduction

Meghalaya Piggery Development Scheme is a component under the CM-ELEVATE Program launched by the Government of Meghalaya. The program aims to employ, engage, and empower the youth of Meghalaya by promoting entrepreneurship and by providing easy access to credit through onboarding of various banks as financial partners of the program. To minimize the risks associated with the credit flow, Government is providing front end subsidy in the form of down-payment and backend subsidy in the form of EMI co-payment. Through this program, the entrepreneurs including individuals, collectives, village organizations, various business entities and traditional institutions etc. will have easy access to various schemes on a single online portal. The program encompasses a number of sectors such as agriculture, horticulture, veterinary and animal husbandry, tourism, entertainment, sports, wellness, and any business venture of economic interest for the people of the state.

2 About the scheme

Pig rearing plays a pivotal role in Meghalaya's economic landscape. It's a multifaceted initiative that has a profound impact on the state's development and nutrition through the following ways,

- a. **Economic Significance:** Pig farming is a significant source of income for the population in Meghalaya. Pig farming generates a high proportion of rural employment for women.
- b. **Nutritional Benefits:** Beyond economic gains, pig rearing also addresses pressing nutritional challenges within the state. The Meghalaya Health Department reports that pork is a rich source of protein, which is vital for addressing malnutrition and promoting overall health, especially among the state's residents.

Meghalaya Piggery Development Scheme is an initiative that is designed to uplift the rural population through the creation of livelihood opportunities and promotion of entrepreneurs by promoting pig rearing as a significant economic activity. Key details of this Scheme include:

- a. **Credit-Linked scheme:** The scheme operates as a credit-linked scheme, closely connected with a partner bank.
- b. **Financial Assistance:** The entrepreneurs will receive financial assistance of 50% of the total project cost. The support provided includes capital assistance and operational support through EMI co-payment.
- c. **Training and Capacity Building:** Entrepreneurs are provided with training and capacity-building resources to assist in the establishment and management of their piggery units.
- d. **Market Access:** The scheme facilitates access to market linkages and additional resources to help entrepreneurs effectively sell their pig farming produce.

Aspiring entrepreneurs registered and un-registered entities in Meghalaya can access financial assistance and comprehensive support through the CM-ELEVATE program. This support encompasses:

- a. **Financial grant and easy credit to the entrepreneurs:** The financial support serves as a vital catalyst for entrepreneurs looking to invest in pig rearing.
- b. **Skill Development and Training:** The program offers skill development and training initiatives to enhance the capabilities of entrepreneurs.

- c. **Capacity Building:** Entrepreneurs receive capacity-building resources, helping them acquire the skills necessary for successful business management.
- d. **Mentorship:** Mentorship initiatives are available to guide entrepreneurs in their journey towards business success.
- e. **Market Access:** The program facilitates market linkages, enabling entrepreneurs to access broader markets for their products and services.
- f. **Business Advisory Services:** Entrepreneurs benefit from advisory services to make informed decisions in their business ventures.

3 Objectives of the Scheme:

- a. **Economic Development:** Contribute to the overall economic development of Meghalaya by strengthening the pig farming sector, which has a significant impact on the state's agricultural GDP.
- b. **Promote Entrepreneurship:** Foster entrepreneurship in the pig farming sector to stimulate economic growth and create a resilient entrepreneurial ecosystem within the state.
- c. **Achieve Self-Sufficiency:** Increase pork production within the state to attain self-sufficiency and reduce reliance on imports from other regions, thereby promoting economic independence.
- d. **Combat Malnutrition:** Raise the per capita availability of pork to combat malnutrition and address protein deficiency in the state's population, thereby improving public health.
- e. **Skill Development:** Offer comprehensive scope for training and capacity-building to entrepreneurs, enhancing their skills and knowledge in pig production while fostering entrepreneurship.
- f. **Livelihood Diversification:** Encourage entrepreneurs to adopt pig farming as a viable livelihood option, generating employment opportunities, additional income, and contributing to economic development.
- g. **Women Empowerment:** The Meghalaya Piggery Development Scheme will empower women in rural areas by actively involving them in pig rearing activities. The scheme will provide training and financial assistance to women to help them start or expand their piggery businesses.

10.1 Cost-Benefit Analysis

Costs: This includes expenses related to training, financial aid disbursement, program administration, and other operational costs.

Benefits: The benefits include the increased income generated by participating entrepreneurs, the contribution to local and state economies through meat production, and the potential reduction in malnutrition.

10.2 Economic Impact

The economic impact of the scheme includes job creation, increased economic activity in the livestock sector, and improved food security due to increased meat production.

10.3 Social Impact

In addition to economic factors, the program should evaluate its social impact, including the empowerment of piggery entrepreneurs, improved livelihoods, and the potential reduction in malnutrition among participating households.

10.4 Suggestions for maximizing profit in piggery

- Improve sow reproductive performance:** This can be done by providing the sows with a comfortable and clean environment, and by feeding them a nutritious diet.
- Increase the number of piglets born alive per litter:** This can be done by selecting healthy and fertile boars and sows.
- Time pig mating correctly:** This can be done by calculating the estrus cycle of the sows and by mating them at the right time.
- Manage pig ovulation and fertilisation rate:** This can be done by providing the pigs with the right nutrients.

- e. **Decrease embryonic and foetal mortality:** This can be done by providing the pigs with a clean and healthy environment.
- f. **Monitor the health status of your herd:** This can be done by regular vaccination and deworming.

11 Role of The Animal Husbandry & Veterinary Department
